Alison M. **Rector**

RESEARCH ASSISTANT AND PH.D. CANDIDATE - BIOSTATISTICS AND DATA SCIENCE

Buda, TX

+1 281 814 5755 | rectora42@gmail.com | rectora42 | alison-rector

As a Ph.D. student with expertise in Biostatistics and Data Science, I have a strong ability to adapt and learn in a variety of settings to streamline data analysis and reporting. I have over 6 years of experience in statistical and data analysis. I enjoy working independently and collaborating with colleagues to troubleshoot and resolve complex issues with research, design, and implementation that propel projects to fruition.

Core Competencies

• Statistical Analysis • Spatio-temporal Models • Advanced Data Visualization • Model Evaluation • Data Management • EHR Data •
• R • RStudio • Git • GitHub • Python • SQL • PostgreSQL • INLA • SAS • Stata •
• Strategic Planning • Technical Leadership • Communication • Adaptability • Ability to Learn • Dissemination of Knowledge •

Education

University of Texas Health Science Center at Houston - School of Public Health — *Houston, TX*
PhD Candidate in Biostatistics and Data Science (Expected completion January 2023) — *August 2018 - Present*

University of Texas Health Science Center at Houston - School of Public Health — *Houston, TX*
Certificate in Advanced Data Science — *December 2021*

Sam Houston State University — *Huntsville, TX*
Master of Science in Statistics — *May 2015*

Southwestern University — *Georgetown, TX*
Bachelor of Arts, Psychology and Spanish — *May 2006*

Selected Graduate Coursework

full transcript available upon request

• Machine Learning in Practice • Practical Python Programming/Algorithms and Data Analysis • Fundamentals of Data Analytics and Prediction •
• Linear Models • Generalized Linear Models • Stochastic Processes for Biostatisticians • Spatio-Temporal Analysis •

Selected Research Experience

Research Assistant — *Houston, TX*
Baylor College of Medicine — *Jan. 2021 - Present*
- Identify susceptible windows of exposure to environmental pollution on birth outcomes, cognitive outcomes, and behavioral outcomes by fitting Distributed Lag Non-linear models
- Mitigate impact of missing data and loss-to-follow up with multiple imputation (MI) and inverse probability weighting (IPW)
- Clean and merge data, analyze and visualize data, and report model results

Graduate Research Assistant — *Houston, TX*
University of Texas Health Science Center at Houston - School of Public Health — *June. 2019 - Present*
- Successfully manage workflow from multiple research projects simultaneously; each with distinct reporting deadlines and unique study design and data constructs
- Create version control repository for cleaning, recoding, summarizing, and visualizing large datasets related to COVID-19 testing, hospitalization, and immunization in greater Houston area; Build predictive models of COVID-19 related ICU bed usage within Trauma Service Areas of Texas
- Develop and implement statistical analysis plan for multi-cohort stepped wedge design research project related to a health care initiative across multiple health care centers in Texas

Graduate Teaching Assistant — *Houston, TX*
University of Texas Health Science Center at Houston - School of Public Health — *Jan. 2019 - May 2020*
- Work with a team to develop standard curriculum for PH1700 Intermediate Biostatistics
- Consulted with lead faculty members about course content and pedagogy, then revised instructional material, including presentation material and supplemental Stata code accordingly
- Performed standard duties of graduate teaching assistant for Applied Linear Regression Course, developed assignment grading rubrics to streamline grading process, and lead lectures when faculty was unavailable

Dissertation: Distributed Lag Non-Linear Models - Advised by Dr. Michael D. Swartz — *Houston, TX*
University of Texas Health Science Center at Houston - School of Public Health — *Aug. 2019 - Present*
- Developing a mediation analysis method for application in a Distributed Lag Non-linear Model (DLNM) Framework
- Developing a Bayesian curve-fitting method for specifying parameters of the cross-basis in a Distributed Lag Non-linear Model (DLNM)
- Identifying sensitive windows of exposure to fine particulate matter on the risk of COVID-19 in a retrospective observational study by applying a Distributed Lag Non-linear Model (DLNM)

Practicum: Ranged Major Axis Regression - Advised by Dr. Melinda Holt *Huntsville, TX*

Sam Houston State University *August 2014 - May 2015*

- Authored a practicum evaluating the impact of planted outliers on average confidence interval lengths and coverage rates in a comparative performance of several Model II regression techniques
- Compared performance of RMA bootstrap interval, parametric RMA interval, parametric SMA interval and asymptotic OLS-bisector interval
- Presented results at COTS conference in Austin, TX Spring 2015

Selected Work Experience

Alipax Tutoring Services *Buda, TX*

Private Tutor *Jan 2002 - Present*

- Customize instructions to meet the needs of individual student; delivering effective virtual individual and small group instructional sessions.

Sam Houston State University *Huntsville, TX*

Lecturer *Aug. 2018 - Dec. 2018*

- Refined and implemented instruction for the courses Introduction to Statistics and Elementary Statistics.

Conroe Independent School District - Oak Ridge High School *Conroe, TX*

High School Math Teacher *Aug. 2017 - July 2018*

- Collaborated with Geometry team to generate instruction plan, calendar, and assessments for all Geometry students and delivered instruction and assessments to Geometry Students

Brazosport Independent School District - Brazosport High School *Freeport, TX*

High School Math Teacher *Aug. 2016 - July 2017*

- Taught Geometry, PreAP Geometry and Algebra students and collaborated with math instructors to improve and implement instructional material.

Aon *The Woodlands, TX*

Pension Specialist *May 2015 - Aug. 2016*

- Developed automated calculator of pension benefits, tested pension participant data for reliability and accuracy, and communicated benefit information to pension participants.
